"This is a highly reputable trade fair, offering opportunities to connect with domestic and international B2B partners. From its scale and organization, I found it to be a very professional and well-structured event, effectively supporting businesses in connecting with partners. I was fortunate enough to connect with many domestic and international partners, including businesses from Japan and South Korea, and I see this as a great opportunity for business networking, a stepping stone that shortens the distance and time for businesses."

GD COMPANY
Korea

"The scale was truly enormous, and it seemed like many people from all over the world came here, including customers from Spain, Dubai, Vietnam, China... and were interested in our products. I am very grateful for this, and if another event is held in Vietnam in the future, I hope to have the opportunity to participate again."

OULEE PRECISION

"Participating in the exhibition at this new venue has brought very clear and positive results. At first, there were quite a few challenges, but thanks to the support from the organizers, everything became much smoother. We hope that after the exhibition, more international customers will become aware of our brand and that we will have the opportunity to connect with larger clients."

If I had to describe this exhibition in one word: Professional and supportive.

"We are here to showcase our Burmese natural resources to the whole world. Business-wise, the Vietnam Expo is very easy to communicate, and the policies are very curated towards foreigners, and for our oversea exhibitors it is really easy for us. Overall I think it's a great experience."

GENFARMA
Cuba

"We took the opportunity to participate as the first time but for sure this will not be the last. We want to appreciate the support to secure a space in order to promote our companies and Cuba pavilion, including the support that we have received all this day in the preparation of the stand.
